MEIYU SONG

Junior UX Designer | Research and Service Design

Dublin, Ireland | +353 87 0397 223 | songmeiyu033@gmail.com | Portfolio | LinkedIn

PROFILE

UCD MSc Human-Computer Interaction graduate (2:1), based in Dublin, focused on making complex information and services easier to understand and use. Experience in user research, Figma prototyping and stakeholder communication through a B2B UX internship and a service-design project for UCD Creative Futures Academy.

EDUCATION

MSc Human-Computer Interaction | University College Dublin

Upper Second Class Honours (2:1) | Dublin | 2025–2026

BA Drama and Film Literature | Xi'an International Studies University

Xi'an, China | 2016–2020

CORE METHODS AND TOOLS

Research & Synthesis: Interview and survey design, qualitative synthesis, usability evaluation, journey mapping

UX & Service Design: Information architecture, content design, user flows, wireframing, prototyping

Tools & AI for Design: Figma, AI-assisted ideation and web prototyping, React/TypeScript (basic), GitHub, Vercel

Collaboration: Stakeholder communication, workshop facilitation, cross-cultural engagement

Accessibility & Systems: Accessibility awareness (WCAG principles), design systems (foundational)

UX EXPERIENCE

UX Design Intern | Jianglan Bio-Energy Europe Ltd.

Jan 2026 – Jun 2026 | Dublin | Internship

Live website: jl-bioenergy.com

- Audited a B2B sustainability website and restructured information architecture, navigation and content to help international clients understand the company's technical capabilities, compliance information and supply-chain operations.
- Developed **two Figma directions for a seven-page redesign**, progressing from low-fidelity wireframes to high-fidelity prototypes and refining the selected direction with company stakeholders.
- Coordinated website testing with **100 participants**, identified usability and performance issues, and refined the experience through testing and post-launch client feedback. Following the redesign, the number of visitors leaving contact details increased by **approximately 20%**.

ACADEMIC PROJECTS

Creative Key — Creative Tech Toolbox for Trapdoor

UX Research, Content & Service Design

2026 | UCD Creative Futures Academy (CFA) | Team academic project

Trapdoor black box theatre, Newman Building, University College Dublin

- Designed interview and survey questions for a study involving **10 interview participants** and **30 UCD undergraduate survey respondents**, then synthesised the findings into user needs.
- Identified limited staff capacity, unfamiliarity with creative technologies and fear of damaging equipment as barriers to access through research and discussions with project champions Prof. P.J. Mathews and Duncan Murphy.
- Designed guidance content and co-designed a self-service kiosk prototype connecting printed Creative Keys with mobile and tablet interactions, providing a visible starting point and take-away guidance to support independent exploration.
- Created low-fidelity prototypes, tested user flows with participants and refined content based on feedback; presented research findings and design rationale to project champions.

Global Study Hub (Immigration Cheat Sheets)
UX Research & Product Design
2025 | University College Dublin | Team academic project

- Used interview findings, personas and competitor analysis to define requirements for a **13-week project** addressing information gaps for international students moving to Ireland.
- Designed Figma user flows for Quiz, Plan and Explore modules, supporting comparison of countries, universities and local areas.
- Refined onboarding, quiz guidance and navigation using heuristic evaluation and observations from a single-participant think-aloud session.

A Day with ElliQ
Interaction Design & Interactive Storytelling
2025 | University College Dublin | Individual academic project

- Independently designed and built an interactive web narrative about AI companionship for older adults, translating AP News reporting into responsive scenes and interactions.
- Created a React and TypeScript prototype with text-to-speech and data visualisation, using simulated interactions to explore privacy, dependency and emotional authenticity.

PROFESSIONAL EXPERIENCE

Education Consultant | AFY Education Technology
Sep 2023 – Sep 2024 | Hangzhou, China

- Generated **approximately RMB 2.6 million** in personal signed sales (**around €350,000**) during Sep 2023–Aug 2024 through tailored recommendations, structured follow-up, repeat purchases and referrals; received the company's Annual Best Service Star award.
- Developed study-abroad plans for students and families, coordinating advisers, tutors and internal teams to align services with client goals and support decisions from consultation to enrolment.
- Planned and hosted a fan engagement event for Bao Shu Talks About Studying Abroad, coordinating programme content, customer communication and event delivery.

Science Education Instructor | Zhejiang Science and Technology Museum
Dec 2021 – Aug 2023 | Hangzhou, China

- Delivered **more than 500 interactive science education sessions** for children, families, school groups and museum visitors, using experiments, storytelling and performance.
- Coordinated camps and outreach from site research and planning through materials procurement, participant communication, delivery and feedback collection; collaborated with schools and external organisations.

ADDITIONAL CONTENT EXPERIENCE

Create study-abroad and life-in-Ireland content on personal Douyin and Xiaohongshu channels, with **7,290** and **730** followers respectively (October 2026).
